3. Style and Usage

1) Translation

- Translated excerpts from classical texts or non-English sources should be annotated with clarification of its original/published language and translator. Likewise, “Author’s own” translations of quoted texts should be noted as such.

- The author is expected to provide an English translation of key terms in the work, rather than a translator without expertise in the subject.

- Excerpts or quoted texts from published translation will not be edited. However, UzLC editors may query or modify translations of key terms or texts provided by the author.

- Where necessary, short supplementary information such as dates, an item in its original characters, or the Romanized form of a non-English item, may be included.

- Names of foreign publishers, and titles of sources published in a foreign language should primarily appear in Romanized form without translation. However, if necessary, a translation may be added in brackets ([]).

2) Names and Terms

- Place Names (foreign):

Designation for division of areas should be either translated or hyphenated after the given area name.

Designation for geographical/structure names are not hyphenated, and appear without the equivalent English term.

Institutional names are considered proper nouns. Their names should appear following the preference of the individual institutions.

3) The descriptive designation of a period is usually lowercase, except for proper names or traditionally capitalized terms.

4. Quotation

1) Block Quotations:

- A block quotation should start with double line spacing and an indentation from the left margin. From the second paragraph of the block quotation, additional paragraph indentation is needed.

Texts in block quotation should be written in Times New Roman 10 pts., and not be entirely italicized.

5. Others

1) There is one space after sentence punctuation and not two.

2) The end parenthesis, closing quotation mark, and footnote numbers come after the sentence punctuation.

3) For parentheses within parentheses, use brackets ([]).
